The problem of evil has kept many away from belief in God. Moreover, the psychological mechanisms involved are strong and steady enough in their influence to ensure that there exists a reliable correlation between virtue and happiness and vice and misery. Liberation theologians, such as Juan Segundo and

Leonardo Boff, have drawn their inspiration from the plight of the poverty and injustice of peoples in the Third World, particularly Latin American.

I think that many religions including Catholicism accept free enquiry and doubt. Religious faith is of two kinds: evidence-sensitive and evidence-insensitive. Search Cancel. Many of these beliefs and practices differed significantly from what the Greek religions and Judaism had held.

Thus faith is merely an expression of a finitude incomprehensible only from the outside. We are also aware that these definitions are not static. It is the underlying principle of religion as well as all serious endeavour in art and science.
