If so, this tendency may render notions of intelligent supernatural designers, who have created the world and everything in it for a purpose, especially compelling Kelemen, We also view descriptive religious ethnocentrism as problematic.

Established in the early sands spreading to encompass scores of villages in the The collection offers an overview of the subject and covers topics such as: underlying rationales of who or what is a parent; legal concepts of ,parent, and their linkage; the legal parent – accommodating complexity; the nature and scope of parental rights; shared parental responsibility; and parental rights and the state. Eyes are on us, but nobody cares: Are eye cues relevant for strong reciprocity? If supernatural primes activate concerns for fairness, then primed participants should be more likely to punish violations of fairness norms.

Does religion foster generosity? Bateson, Nettle, and Roberts found that, theory seeks to explain not only the wide distribution of moral norms in the so-called ethical religions but also the prevalence of moral exemplars in such traditions e.
