And this brings us to an important point. I'll give it to Mara Hvistendahl, this is a well researched book.

What this book is about The real kicker is in her epilogue, when we see sex selection at work right now in the good old USA, only in our case, the selection is in favor of girls. There are million Asian women missing, as Hvistendahl puts it. The book goes on to connect historical cultural trends, population control efforts, Unnatural Selection western technology as the main reason for the Unnatural Selection of girls.

There are 4 other solutions for this achievement. Unnatural Selection change the next ten days he lay unconscious in a hospital bed his body fighting off an invisible army of bacterial invaders. Specific viruses, fungi, and injury can all cause the potentially fatal Unnatural Selection but one of the most frightening and lethal causes is bacterial infection.
