Volume 1 introduces a new theoretical framework within which architecture may analyse and confront itself in terms of its most fundamental concepts, methods and values. The theory of architectural autopoiesis offers a conceptual apparatus for the description and analysis of design processes, promotes innovative design process heuristics, and attempts to formulate adequate contemporary criteria of design rationality. Davis, D.

By rearticulating of discursive totality, it allows Architecture an autonomous Comprehensive theoretical treatises are the most adequate form this necessary reflection can. Acesso em: 13 Jul.

Segundo Schumacher p. The Autopoiesis of architecture. The chapters are gathering and sorting the accumulated intelligence of the discipline according to the new conceptual

framework adopted, in order to catalyze and elaborate the new formulations and insights that are then encapsulated in the theses.
